

Monaco Snapdragons are your best choice for seasonal transitions

Monaco is well-suited for difficult “transition” periods, such as from Group 3,4 (Summer) to Group 1,2 (Autumn/Winter) varieties.

Monaco White Snapdragon

SNAPDRAGON 
Antirrhinum majus

Monaco Series (Group 2,3)

Stem Length: 39 to 60 in./1 to 1.5 m
Supplied as raw seed.

Monaco tolerates warm Autumn conditions without flowering too quickly, and produces high-quality flower spikes when Autumn weather is unusually cool and dark. The series performs well all year in areas with moderate temperatures and little fluctuation in daylength, such as near the Equator. Suitable for greenhouse or field cut flower production.

Baltimore Rose (2,3) 3403

Red (2,3) 3416

Rose (2,3) 3405

Violet (2,3) 3428

White (2,3) 3430

Yellow (2,3) 88202

For detailed culture information, refer to the Cut Flower Culture Chart at panamseed.com.
