

Choose Laguna F1 Single Lisianthus for outstanding stem & flower quality

Laguna varieties are selected for their outstanding stem strength, stem caliper and flower quality.

Laguna 2-4 Blue Rim Lisianthus

PanAmerican Seed™

SINGLE-FLOWERED

LISIANTHUS
Eustoma grandiflorum

Laguna F1 Series

Location: Greenhouse, shade house
Height: 33 to 45 in./85 to 115 cm
Supplied as easy-to-sow pelleted seed with 80% minimum germination standard.

Laguna lets you produce a high-quality finished crop in a comprehensive colour range using just one series. Uniform seedling vigour and less rosetting sensitivity than the competition in both the plug and finish stages for Laguna increases the number of saleable plants and stems, and reduces or eliminates the need for gibberellic acid (GA) spraying. Flowers earlier than ABC double varieties when planted together. Allow approximately 14 weeks from transplant to harvest for early-season transplants and approximately 11 weeks for mid to late-season transplants.

- 2-2 Lilac 1372
- 2-2 Purple 1370
- 2-3 Buttercream Blush 292152
- 2-3 Deep Rose 210979
- 2-3 Ivory 1346

Laguna Lisianthus Seasonality Number Guide

The first number, "Speed Guide," tells whether the variety is faster or slower to flower. The second number, "Versatility Guide," indicates whether the variety can be grown over a longer or shorter flowering period.

		FLOWERING PERIOD			
		Winter	Spring	Summer	Autumn
SEASONALITY NUMBER	1-1				
	1-2				
	2-2				
	2-3				
	2-4				
	3-3				
	3-4				
	4-4				

Indicates the standard flowering period of variety.
 Indicates extended flowering period options (extension of flowering period is possible depending on local temperature, daylight and light intensity).
