

Updated E-byte: Vinca: Looking for the truest red Vinca on the market?

PanAmericanSeed.

E-BYTE SELLUTIONS

A Whole New Way to Think About Seed!

Packs to baskets, our vincas stand out from the rest. Count on our XP Pacifica and Mediterranean varieties for power-packed performance!

The truest Red! Pacifica Really Red XP beats every other vinca for power-packed RED color. Check out our proof-positive comparison photo to the right.

XP uniformity makes production a breeze: Mediterranean XP and Pacifica XP seed delivers a tight 5 to 7-day bloom window plus exceptionally uniform habit and plant vigor; consistent, early flowering; and superior flower power. XP = Xtra Performance, Xtra Precision and Xtra Profit.

Mediterranean builds the best Summer baskets: The only trailing vinca series from seed to contain true red and pure white, Mediterranean has an innovative plant structure that makes big, beautiful plants that show a whole lot more color and a whole lot less basket. Available in 11 colors and 3 mixes, including best seller pure White XP.

- Entire series: 2008 Top Performer at Univ. of Tennessee: "great foliage and heavy blooms all season"
- White XP, Red XP, Peach XP and Hot Rose XP: excellent ratings for '08 from Univ. of Georgia and Mississippi State Univ.

Pacifica makes the fastest, most uniform packs: The earliest, largest-flowered and most vigorous O.P. vinca, Pacifica has huge retail appeal and delivers great performance from bench to garden. 17 Pacifica colors and 7 mixes (such as the Pacifica Lipstick Mix XP Vinca shown to the right) cover all the top sellers.

- Really Red XP: A standout in Summer '08 at Univ. of Florida, Univ. of Georgia, W. Madison (Wisconsin) Ag Research Station, Dow Gardens (Michigan)
- Seven Pacifica XP colors including All-America

Selections winner Burgundy Halo XP brought home very good ratings from University of Florida

Count on terrific uniformity; big, early blooms; and lots of eye-catching color with Mediterranean and Pacifica vincas. Order yours today! Culture and more at panamseed.com
