

Jade Princess Ornamental Millet Temperature Sensitivity

**Grown
Optimal/Warm**
Days: 80°F/27°C
Nights: 60°F/15°C

**Grown
Cool**
Days: 70°F/21°C
Nights: 50°F/10°C

Jade Princess is more sensitive to cold temperature than other ornamental millets. Night temperatures below 60°F (15°C) will slow plant growth and development, and cause foliar chlorosis.
