

**FOR EVERYWHERE
YOU GROW**

BEGONIAS

PanAmerican Seed[®]

WE'VE GOT THE BEGONIA FOR THAT

Look to PanAmerican Seed® for your complete interspecific begonia program. These durable hybrids are bred to withstand heat, drought, humidity, sun and shade, requiring less maintenance for growers and home gardeners. They look fantastic from the beginning of early Spring to the first frost, with little deadheading. They show bright, colorful flowers and shiny dark leaves on full, vigorous habits.

From fastest-to-market **Hula™** and **BabyWing®** for day-neutral growing, to **Megawatt™** for big Spring sales, and main-season **Dragon Wing®** to perform all Summer long, we have the best performers for small to large containers, hanging baskets, gardens, groundcover and professional landscaping.

Use this guide to find the best begonia for your application, climate, habit and vigor.

HULA™

Hula Red and White Mixture

Hula Bicolor Red White

Hula Blush

Hula™ Series F1

Begonia interspecific

- This unique, spreading-type begonia produces lots of branches and stays covered in flowers.
- It gives landscapers an instant performance advantage, with masses of flowers showing on top, providing great color impact as a flowering groundcover.
- The series is daylength neutral and it is the earliest interspecific begonia to flower, with timing similar to BabyWing.
- Hula starts to spread at an early stage, creating a high-quality, attractive plant that is covered with blooms at retail and looks fantastic in hanging baskets and smaller containers.

BABYWING®

BabyWing Red

BabyWing Red Bronze Leaf

BabyWing Bicolor

BabyWing White Bronze Leaf

BabyWing® Series F1

Begonia interspecific

- BabyWing is not daylength sensitive, so it is one of the first interspecific begonias to market.
- Upright, mounded, controlled plants stand up to shipping for an outstanding show at retail.
- The plants provide easy, season-long performance in landscapes and containers.
- It beats the heat and handles stressful conditions like a champ.
