

Vegmo Matricaria fits your year-round program

Vegmo Sunny Ball Gold Matricaria

Vegmo features double flowers held above lacy, fragrant foliage, with nice stem quality plus good flower range and bud count.

PanAmerican Seed™

MATRICARIA 
Tanacetum parthenium

Vegmo Series

Height: 28 to 36 in./70 to 90 cm
Supplied as easy-to-sow pelleted seed with 80% minimum germination standard.

Vegmo matricaria is an excellent, fast year-round crop with lacy, fragrant foliage that is ideal for use as a filler in bouquets, with a good post-harvest life. Long day-flowering plants need a 16 to 18-hour daylength to flower and achieve height using night interruption; will rosette in short days with less than 14 hours. Production in full sun results in shorter stem length compared to production under shade. Series blooms 8 to 10 weeks from transplant.
