

Mediterranean Series Trailing Vinca

Mediterranean XP varieties make big, beautiful plants that show a whole lot more colour and a lot less basket.

Mediterranean Red XP Vinca

PanAmerican Seed™

VINCA 
Catharanthus roseus

Mediterranean Series

Height: 4 to 6 in. (10 to 15 cm)
Spread: 20 to 30 in. (50 to 75 cm)
A Hot Summer Survivors selection.
Supplied as standard seed with an 85% Yield Potential rating.

The only full series of trailing vinca offering a true red and a pure white, Mediterranean XP varieties fill in fast with terrific coverage to make big, colour-filled baskets. XP genetics deliver a tight, 5 to 7-day flowering window, significantly better spreading habit, larger flowers and improved germination. With low water needs in sunny, hot and dry conditions, this is a great alternative to water-hungry crops. *Peach, Red and White all received excellent ratings from the University of Georgia 2008 trial gardens, and Series is a Kansas State Prairie Star Performer.*

Mediterranean XP Varieties

- New Cherry Red Halo XP** (U.S. Plant Variety Protection Applied For) 'PAS810159'
