

Taishan delivers strong stems & unshakable performance

NEW Taishan Gold

New Taishan Series F1 African Marigold

With 20% shorter peduncles and 15% thicker stems than the market leader, Taishan offers less stretch on the bench, and less breakage in shipping and at retail.

Taishan ships strong, retails well and puts on terrific all-season shows, thanks to its thick, sturdy stems and big, tight-petaled, water-shedding blooms. It's the dwarf African marigold that assures less breakage, less waste in production and a whole lot more customer satisfaction.

Performance is so spectacular that the Taishan series was featured throughout the landscapes at the 2008 Olympic Games in Beijing, China.
