

**ALL-NEW**  
**Combos worth**  
**talking about!**

## Plug & Play Combos move you seamlessly from plant to perfect

Every Plug & Play seed combo is tested over and over to prove that it delivers unstoppable performance from bench to store to garden. Trialing in saleable sizes begins in our research greenhouses and in our outdoor Summer containers. But we don't stop there - every potential introduction heads out to commercial greenhouses and to real-life gardens. It's only when our customers give the combos they've seen in action two thumbs up that they move into the lineup.

**Lemon Dream** p. 21

## PLUG & PLAY FUSEABLES®

### VALUE

#### FUSEABLES

"Easy-sow, easy-grow" Precision Multi-Pellets offer the only combo program from a single pellet.  
**p. 4**

### BETTER

#### WAVE® FUSEABLES

Packs a double punch – beautiful, balanced combos featuring the most-asked-for flower brand!  
**p. 6**

### PREMIUM

#### PREMIUM ANNUAL FUSEABLES

Our proven single-input Fuseables open up a new category, with Kabloom® seed calibrachoa components.  
**p. 7**

## PLUG & PLAY COMBOS

### BETTER

#### WAVE PLUG & PLAY COMBOS

Grow good-looking, well-balanced, all-Wave mixes in one pot...without a royalty!  
**p. 8**

### PREMIUM

#### PLUG & PLAY COMBOS WITH PREMIUM ANNUALS

Dramatic good looks and dependable performance meet or beat their vegetative counterparts. Several of these combos include well-known Wave petunias for extra recognition in the store.  
**p. 18**

### PREMIUM

#### PLUG & PLAY COMBOS WITH PERENNIALS

Set yourself apart with proven, programmable combos featuring first-year-flowering, mid-season varieties.  
**p. 22**

## Grow and sell every Plug & Play combo with complete confidence!

#### GOOD FOR GROWERS: EASY, ECONOMICAL PRODUCTION

- Superior, high-impact genetics plus recipe and culture support.
- Programmable finish times to hit store set dates.
- You're always in complete control of when to sow, grow and ship.

#### GOOD FOR RETAILERS: BIG RETAIL SHOWS = BIG SALES

- Ready-to-use options from value priced to upscale designer blends.
- On-trend colors that sell.
- The perfect magnet for repeat shoppers!

#### GOOD FOR CONSUMERS: CHOICES FOR SPRING, SUMMER & FALL

- Easy, grab 'n go gardens appeal to today's shopper.
- Lots of instant, long-lasting, multi-color blooms.
- Balanced, attractive combos to enhance every décor.

## AMAZON RAIN FOREST

Blue Arrows Juncus, Byzantia Silver Stachys & Silver Falls Dichondra

☀️🌱 Finished in a 10 to 12-in. /25 to 30-cm container

	Variety	Multi-sown Plug	Plug/Liner Time (Weeks)	Plug/Liner Sizes	Transplant to First Flower (Weeks)	Plant Height	USDA Zones
A	Blue Arrows Juncus	1 multi-pellet	7-8	128-72	10-12	16-20 in./40-50 cm	5-9
B	Byzantia Silver Stachys	Yes	6-7	128-72	9-11	8-10 in./20-25 cm	4-9
C	Silver Falls Dichondra	Yes	6-7	128-72	11-13	3-5 in./7-13 cm	Annual

## SYDNEY SPARKLER

'Sparkle White' Gaura & PowWow® Wild Berry Echinacea

☀️🌱 Finished in a 10 to 12-in. /25 to 30-cm container

	Variety	Multi-sown Plug	Plug/Liner Time (Weeks)	Plug/Liner Sizes	Transplant to First Flower (Weeks)	Plant Height	USDA Zones
A	'Sparkle White' Gaura*	Yes	5	128-72	7-8	12-24 in./30-60 cm	5b-9
B	PowWow Wild Berry Echinacea*	Yes	5-6	128-72	13-17	16-20 in./40-50 cm	4-10

\* All-America Selections National Winner

**IMPORTANT:** All varieties in each Plug & Play combo must be transplanted at the same time in order to finish at the same time. Sow times will vary.

# key grower tips

## Start out right!

The first step in defining the Plug & Play combination pot starts on the planting line. Follow the recipes and planting diagrams for best success. Plug size, number and planting position is key.

## Easy does it!

Next up is PGR application, specifically for multi-species combinations.

We recommend the following for the best toned and fully mixed multi-species combination finish.

8 in./20 cm

10 in./25 cm

**PLUG SIZE:** Every Plug & Play recipe takes each ingredient's growth rate and flower timing into consideration. Larger inputs are used when necessary to obtain the best balance of growth and flowering.

**PLUG NUMBER:** It is important to use the right ratio of inputs, just as with vegetative intermingled combos. The correct number of plugs per component leads to the best balanced combination finish.

**PLUG POSITIONING:** Plant your plugs halfway between the middle of the pot and the rim. A tight circle of plugs is key to getting the intermingled look desired in a multi-plant combination. Planting at the rim results in a "clumpy," less intermingled look. All varieties in each Plug & Play combo are transplanted at the same time in order to finish at the same time. Sow times may vary.

**NOTE:** In multi-species combos, shear Kabloom plugs before transplanting.

**PGRS\*:** Daminozide spray at 2,500 to 5,000 ppm (depending on your conditions) 1 week after transplant, followed by a second daminozide spray 7 to 10 days later. Daminozide will allow the axils to expand, versus a paclobutrazol treatment which can lock up axillary branching. The result is controlled growth early, while still allowing good branching for the combination's development.

When plants grow to the rim and begin to fill the pot, switch to a repeated low rate paclobutrazol drench at 1 to 2 ppm (depending on your conditions). Go easy - too high a rate for the paclobutrazol drench can stop the non-petunia components and lead to a bad mix result.

*\*Rates are based on trials in the northern U.S.*
