

# ALL SEED, ALL SEASONS, ALL PROVEN, ALL YOU NEED

2019 COLLECTION

Introducing NEW cool-season combos  
with Cool Wave® pansies and NEW warm-season combos!

## Proven to perform, proven to sell

20 on-trend Plug & Play newcomers expand the lineup of easy, fresh and fun combos that deliver. We're excited to offer **first-ever cool-season combos featuring Cool Wave pansies**. And to answer the big demand for heat lovers, you'll also find **all-new warm-season combos perfect for Summer performance**.

The Plug & Play program is built upon internal and external testing in multiple regions. This **fully vetted** collection of 80 Plug & Play combos serves up grab 'n go gardens that give today's consumer plenty of time to enjoy life!

Find all the program details at [panamseed.com/PlugandPlay](http://panamseed.com/PlugandPlay)

Flying the Flag - A Wave Plug & Play Combo

## Move seamlessly from plant to perfect

Every Plug & Play seed combo is tested over and over to prove that it delivers unstoppable performance from bench to store to garden. Trialing in saleable sizes begins in our research greenhouses and in our outdoor Summer containers. But we don't stop there - every potential introduction heads out to commercial greenhouses and to real-life gardens for intense testing. It's only when our customers give the combos they've seen in action two thumbs up that they move into the lineup.

### GOOD FOR GROWERS: EASY, ECONOMICAL PRODUCTION

- Superior, high-impact genetics plus recipe and culture support.
- Programmable finish times to hit store set dates.
- You're always in complete control of when to sow, grow and ship.

### GOOD FOR RETAILERS: BIG RETAIL SHOWS = BIG SALES

- Ready-to-use options from value priced to upscale designer blends.
- On-trend colors that sell.
- The perfect magnet for repeat shoppers!

### GOOD FOR CONSUMERS: CHOICES FOR SPRING, SUMMER & FALL

- Easy, grab 'n go gardens appeal to today's shopper.
- Lots of instant, long-lasting, multi-color blooms.
- Balanced, attractive combos to enhance every décor.

# MORE SEASONS. MORE CHOICES. MORE SALES!

## PLUG & PLAY FUSEABLES®

### VALUE

#### FUSEABLES

"Easy-sow, easy-grow" Precision™ Multi-Pellets offer the only combo program from a single pellet. You'll grow and sell more consistent and better looking mixes. **p. 6, 7, 10 & 22**

### BETTER

#### COOL WAVE FUSEABLES

**NEW FOR 2019:** Pump up cool-season sales with the best-performing spreading pansy for Spring and Fall starring in 2 outstanding combos that you start with our Precision Multi-Pellets. **p. 7**

### BETTER

#### WAVE® FUSEABLES

Packs a double punch - beautiful, balanced combos featuring the most-asked-for flower brand! They're perfect for main-season programs and supported by Wave marketing and merchandising. **p. 11 & 12**

### PREMIUM

#### PREMIUM ANNUAL FUSEABLES

Our proven single-input Fuseables open up a new category, with Kabloom™ seed calibrachoa components. Easy and efficient growing with premium results! **p. 18**

Revolutionary Fuseables Precision Multi-Pellets...

flow right through your seeder...

transform into "easy-sow, easy-grow" plugs...

to grow great-looking, balanced combos that sell!

## PLUG & PLAY COMBOS

### VALUE

#### SINGLE-SPECIES PLUG & PLAY COMBOS

**NEW FOR 2019:** The focus is on sure success with 6 simple yet vibrant, heat-loving combos - 3 feature constant-color Lucky Star® pentas and 3 show off Titan™, Valiant™ and NEW Tattoo™ vinca. **p. 25 & 26**

### BETTER

#### COOL WAVE PLUG & PLAY COMBOS

**NEW FOR 2019:** Stand way above the crowd in Spring and Fall with the *fastest-growing, longest-lasting, truly trailing pansy* adding a designer look to cool-season baskets and pots. **p. 8**

### BETTER

#### WAVE PLUG & PLAY COMBOS

Grow good-looking, well-balanced, all-Wave mixes in one pot...without a royalty! They're easy to make and easier to sell with recognized Wave branding. **p. 12-20**

### PREMIUM

#### PLUG & PLAY COMBOS WITH PREMIUM ANNUALS, VEGETABLES & HERBS

**NEW FOR 2019:** Dramatic good looks and dependable performance meet or beat their vegetative counterparts. Eight new Summer combos featuring popular and unique seed items like Serena® and Serenita® angelonia, Zahara® zinnia and Purple Prince alternanthera make a big statement at retail and on home patios. These "premium" standouts deliver endcap or front-of-store appeal, with several offering built-in Wave recognition. **Annuals p. 27 & 28, Vegetables & Herbs p. 23**

### PREMIUM

#### PLUG & PLAY COMBOS WITH PERENNIALS

Set yourself apart with proven, programmable combos featuring first-year-flowering, mid-season varieties. Elegant and textured containers are perfect for Summer and Fall sales. **p. 29 & 30**

Planning and purchasing just got easier - you'll find all 80 combos in the handy, all-in-one Seasonal Selection Guide on **p 4 & 5**.

## Start out right!

The first step in defining the Plug & Play combination pot starts on the planting line. Follow the recipes and planting diagrams for best success. Plug size, number and planting position are key.

**PLUG SIZE:** Every Plug & Play recipe takes each ingredient's growth rate and flower timing into consideration. Larger inputs are used when necessary to obtain the best balance of growth and flowering.

**PLUG NUMBER:** It is important to use the right ratio of inputs, just as with vegetative intermingled combos. The correct number of plugs per component leads to the best balanced combination finish. Note that there is an additional input needed in the center of the pot in some mixes in this collection.

**PLUG POSITIONING:** Plant your plugs halfway between the middle of the pot and the rim. A tight circle of plugs is key to getting the intermingled look desired in a multi-plant combination. Planting at the rim results in a "clumpy," less intermingled look. All varieties in each Plug & Play combo are transplanted at the same time in order to finish at the same time. Sow times may vary.

**NOTE:** In multi-species combos, shear Kabloom Calibrachoa and Combo Blue Calibrachoa plugs before transplanting.

## Easy does it!

Next up is PGR application, specifically for multi-species combinations.

We recommend the following for the best-toned and fully mixed multi-species combination finish.

**PGRS\*:** Daminozide spray at 2,500 to 5,000 ppm (depending on your conditions) 1 week after transplant, followed by a second daminozide spray 7 to 10 days later. Daminozide will allow the axils to expand, versus a paclobutrazol treatment, which can lock up axillary branching. The result is controlled growth early, while still allowing good branching for the combination's development.

When plants grow to the rim and begin to fill the pot, switch to a repeated low-rate paclobutrazol drench at 1 to 2 ppm (depending on your conditions). Go easy - too high a rate for the paclobutrazol drench can stop the non-petunia components and lead to a bad mix result.

\*Rates are based on trials in the northern U.S.
