

Classic Asian salad mix in a precision pellet makes sowing fast and simple. Great for hydroponic production!

Features & Benefits

- A mix of Asian greens – mizuna and komatsuna – that were selected for late bolting and uniform growth.
- Leaves have attractive lobed and serrated leaf shapes in bright purple and green shades.
- Classic flavor is perfect for salads or braising.
- Cut at junior leaf stage 25-35 days from sowing or at full leaf stage 35-45 days from sowing.
- Cut leaves 2 in./5 cm above soil level and foliage will re-grow to junior leaf size approximately 10 days later
