**NEW Rose Green Leaf** 

NEW Megawatt pushes the must-have begonia class to a whole new level, with great timing benefits, a unique color and more!

## **USE THE POWER OF FRESH, HIGH-ENERGY OPTIONS**

The entire seed begonia market continues to boom - especially in Interspecific Begonias. Great for gardeners and landscapers, these standouts deliver huge vigor, color and last-ability.

• Striking, non-stop flowers keep plants covered in MEGAcolor from Spring through Fall...even in heat and drought. • Sturdy flower stems hold flowers above the foliage for superior show versus others. • Shows well at retail and perfect for landscapes, baskets, big tubs and borders.

#### Lively in-store campaign will make some noise at retail!

Bold, in-your-face Megawatt Pots & Tags shout "Buy Me!" Order from your preferred supplier.

### **ALL-SEASON SUPPLY**

You're positioned to supply your landscaper and garden center customers with the high-impact Interspecific Begonia lineup from PanAmerican Seed. **BabyWing**<sup>®</sup> is fast to market and perfect for earliest sales. Ship and sell **Megawatt™** containers next, then follow up with main-season baskets of **Dragon Wing**<sup>®</sup>. (More on popular Dragon Wing and BabyWing begonias at panamseed.com)

#### Crop timing for scheduling landscape begonia programs

#### Megawatt is a facultative short-day plant - flowers faster under short days (10 to 12 hours).

All interspecific begonias are daylength sensitive - long days will delay flowering. Megawatt Green Leaf varieties are 2 to 3 weeks slower to flower in long days. Megawatt Bronze Leaf varieties are less daylength sensitive than others, and long days will only delay flowering 4 to 7 days.
