BEGONIA

BabyWing, Megawatt, Dragon Wing:
Every plant a winner with the 3 that Sell...Satisfy...Succeed!

PanAmerican Seed®
FRESH, HIGH-ENERGY OPTIONS
The entire seed begonia market continues to boom – especially in Interspecific Begonias. Great for gardeners and landscapers, these standouts deliver huge vigor, color and last-ability.

ALL-SEASON SUPPLY
You can supply your landscaper and garden center customers with the high-impact Interspecific Begonia lineup from PanAmerican Seed.

BabyWing® is fast to market and perfect for earliest sales. Ship and sell Megawatt™ containers next, then follow up with main-season baskets of Dragon Wing®.

Crop timing for scheduling landscape begonia programs

Hit the jackpot every time! Trusted genetics. Proven results. Gardener favorites.

BABYWING
First to ship, first to sell

MEGAWATT
MEGAsize + MEGAcolor = MEGAsales!

DRAGON WING
Flaming hot main-season seller

Order your BabyWing, Megawatt and Dragon Wing seed and plugs today from your preferred supplier.
BabyWing®
First to ship, first to sell

BabyWing®
Begonia x hybrida

Height: 12 to 15 in. (30 to 38 cm)
Spread: 10 to 12 in. (25 to 30 cm)

• It’s not daylength sensitive, so BabyWing is the first interspecific begonia to market!
• The upright, mounded and controlled plants stand up well to shipping.
• Easy, season-long performance in landscapes and containers.

**Megawatt**

_Begonia interspecific_

- Height: 20 to 28 in. (51 to 71 cm)
- Spread: 16 to 24 in. (41 to 61 cm)

- An instant winner for its great timing benefits, one-of-a-kind varieties, ultimate garden power and more.
- All Megawatt varieties match competing begonias in size and timing...but get plants to market earlier!
- Easy, bigger-than-life color shows well at retail and is perfect for landscapes, baskets, big tubs and borders.
- Striking, non-stop flowers keep plants covered in huge color from Spring to Fall...even in heat and drought.
- Sturdy flower stems hold flowers above the foliage for superior show versus others.

**New Pink Green Leaf**
A “must-have” color for retail programs. More uniform than the competition, with similar or earlier timing.

**New Red Green Leaf**
Improved to match the series for timing and plant habit.

**New Rose Green Leaf Improved**
Upgraded to match the series for timing and plant habit.

- Designed to stand out! Bold, branded pots & tags from your preferred supplier.

**MEGAWATT GROWING ON TO FINISH**

**Recommended Plug Size**: 288

**Growing On Temperature (Days/Nights)**
- Day: 65-70°F/18-21°C
- Night: 60-65°F/16-18°C

**Target Media pH/EC**: 5.4-6.0 pH / 1.0-1.2 mmhos/cm

**Daylength**: Facultative Short Day

**Finishing Programs**
- 5"/6"/1 Gallon: 1 ppp, 7-9 weeks, Late Spring
- 5"/6"/1 Gallon: 1 ppp, 7-10 weeks, Summer
- 12" Pot or HB5 Gallon: 3 ppp, 9-11 weeks, Summer

**Key Tips**
- All Megawatt varieties flower faster under daylength of 12 hours or shorter. Longer daylength could delay flowering 4 to 7 days for all Megawatt varieties. If necessary, spray paclobutrazol at 2 to 5 ppm dependent on environmental conditions, plant growing stage and varieties for Megawatt plant size control. Repeat as needed.

---

**Dragon Wing**

**Dragon Wing®**

_Begonia x hybrida_

- Height: 12 to 15 in. (30 to 38 cm)
- Spread: 15 to 18 in. (38 to 46 cm)

- Best-in-class “bullet-proof” performance, fast fill-in and easy-care nature make this dynamic duo a top choice of landscapers and homeowners over and over.
- Even when temperatures blaze, Dragon Wing keeps pumping out winning color all season.
- Unique arching habit is spectacular in baskets, big containers and commercial landscapes.
- Easy to grow from seed, Dragon Wing surpasses vegetative varieties for branching, vigor and flower power.

**Recommended Plug Size**: 288

**Growing On Temperature (Days/Nights)**
- Day: 65-72°F/18-21°C
- Night: 60-65°F/16-18°C

**Target Media pH/EC**: 5.4-6.0 pH / 1.0 mmhos/cm

**Daylength**: Facultative Short Day

**Finishing Programs**
- 5"/6"/1 Gallon: 1 ppp, 7-9 weeks, Late Spring
- 8"/2 Gallon: 3 ppp, 8-10 weeks, Late Spring

**Key Tips**
- Dragon Wing will flower faster under short day conditions. After transplant, use Bonzi 3 to 5 ppm spray for height control when needed.
