vivid flower colours.

Opera Debora Matthiola

PanAmerican Seed™

**NORTHERN GREENHOUSE
SELECTABLE MATTHIOLA**
M. incana

Opera Series

Location: Greenhouse
Stem length: 32 in./80 cm
**Supplied as raw seed with 80%
minimum germination standard.**

Bred for optimal performance in cooler greenhouse conditions, the Opera series offers a wide range of vivid flower colours. Recommended for Autumn to late Spring-flowering, production of this fragrant favorite is possible year-round if cool Summer temperatures are maintained in the greenhouse. Opera partners well with the Aida, Carmen and Figaro series to offer an outstanding lineup of greenhouse-grown selectable Matthiola varieties for year-round production. Transplanting for seasons earlier than listed will result in later flowering.

Greenhouse-grown Matthiola are distinguished from field-grown types by the softer green leaves. NOTE: Selectable Matthiola will produce approximately 50% double-flowering types, but it is easy to select out the single-flowered types at the young plant stage. Refer to the PanAmerican Seed Product Information Guide for details.

- Aida 2603** White.
- Blueberry 225195** Unique blue colour.
- Daphne 2600**
- Debora 2623**
- Francesca 2629**
- Leonora 2631** Purple.
