Features	Ideal for adding texture to mixed combos or used as an indoor plant. Dense mounded habit needs no pinching or PGRs, grows upright when young and drapes as it matures. Performs well in wet conditions. Prefers shade but can handle sun if moisture is maintained.	Upright, blue-green grass is ideal for dry locations. Grows to 20 in after the first season.	Variiegated light/medium green grass has twisting tips and an arching habit.	Bronze-brown variety has an arching habit.	Upright and arching evergreen grass has flat, mid-green leaves fringed in white hairs. Small, white flowers in spiky inflorescences in Spring/early Summer. Flourishes in damp, shady areas.

Features	Compact, spiky, blue-green tufts mature to reddish green.	Compact variety displays green, broad-leafed foliage and long-lasting dark green star inflorescences.	The only pink grass from seed – color turns to shades of copper and pink under cool conditions, natural sunlight and maturity. Adds movement and texture to landscapes, gardens, mixed containers and baskets.	Very cold hardy variety produces dense, compact tufts of blue-green, with small, upright brown plumes from Summer to Autumn.	Linear blue foliage and vertical habit provide faster, more reliable alternative to spike dracaena. Easy-care, including standing water and drought. Attractive indoor or water plant. Great retail shelf life.

Features	Upright grass has fine, needlelike green foliage, with silky green flowers in July that mature to golden blonde.	Sturdy, upright, narrow-leafed sedge has bright green foliage. Good hear tolerance. Easy-care for accent in landscapes, planters.	Red-bronze grass has curled tips and upright habit.	Stiff, upright, blue-green foliage is well-suited to annual bedding and mixed containers. Heat-tolerant is a wide range of environments. Can be grown as a pond plant, but drought-tolerant when grown in-ground. Also makes great indoor plant.	Makes a dramatic “thriller” for mixed containers. Can grow up to 5’ tall in landscapes. Rugged, upright plant can grow in standing water, but also handles heat/drought. Provides great Winter interest, maintaining upright, stiff straw-color foliage.
