

## Gaillardia Mesa™ F<sub>1</sub> Series

(*Gaillardia x grandiflora*)

Perennials Culture (revised 01/18/21)

### Fast, non-fading colour that won't quit

The first seed F<sub>1</sub> gaillardia fills quart and gallon containers quickly with bold, brilliant colour. These plants hold up under dry conditions, and they put out intense, nonfading colour all season long. Create more colourful landscapes and mixed containers with Mesa.

**Plug crop time:** 5 to 6 weeks

**Transplant to finish:** 11 to 13 weeks

- The first F<sub>1</sub> gaillardia from seed puts out lots of fast colour on sturdy plants.
- Strong, early-flowering, well-branched plants fill quart and gallon containers quickly while maintaining the controlled height.
- Compared with other seed gaillardia, Mesa varieties are more uniform in habit and flowering time, for easier scheduling and shipping.
- Very drought tolerant once established, with intense, non-fading colour all season.
- Upright, well-balanced plants perform well in landscapes and mixed containers.
