

Begonia (Spreading) Hula™ F₁ Series

(*Begonia interspecific*)

Annuals Culture (revised 12/12/24)

Blanket landscapes with unique begonias

Hula Spreading Begonia is fast to fill in landscape beds, creating a blanket of high-impact colour! Floriferous Hula also looks amazing in hanging baskets and mixed containers, providing an opportunity to offer a more premium product.

Plug crop time: 6 to 8 weeks

Transplant to finish: 5 to 7 weeks for Spring timing

- Hula is a unique spreading-type begonia that is highly branched and covered with flowers.
- Its trailing habit elevates baskets and containers.
- Provides an instant performance advantage for landscapers, with masses of flowers showing on top.
- The series is daylength neutral and it is the earliest interspecific begonia to flower, with timing similar to BabyWing®.
- The large amount of flowers provides high-impact colour.
- Early-flowering Hula starts to spread at an early stage; it provides growers a high-quality, attractive, salable plant that is covered with blooms at retail, in both hanging baskets and smaller pot sizes.

306 Pack/1801	1 (ppp)	6-8 (weeks)	Spring	-
4"/4.5"/Quart/10 cm	1 (ppp)	6-8 (weeks)	Spring	-
5"/6"/1 Gallon/15 cm	1-2 (ppp)	6-8 (weeks)	Spring	-
12" Pot or HB/5 Gallon/30 cm	3-4 (ppp)	8-10 (weeks)	Spring	-

Finishing Key Tips

Growers can use PGRs on Begonia Hula only when necessary. Hula responds well to a tank mix of daminozide (B-Nine/Alar) and Chlormequat (CCC). Daminozide (B-Nine/Alar) 2,500 ppm. Chlormequat (CCC) 150 ppm and 300 ppm. Paclobutrazol (Bonzi) also works, but should be used with caution, as it could cause stunting in plants. Under ADT of about 68°F/20°C, Paclobutrazol 2-3 ppm spray is recommended.

NOTE: Growers should use the information presented here as guidelines only. PanAmerican Seed recommends that growers conduct a trial of products under their own conditions. Crop times will vary depending on the climate, location, time of year, and greenhouse environmental conditions. It is the responsibility of the grower to confirm the treatment is available in their region as well as read and follow all the current label directions relating to the products.
