

Peppi Pepper

- Plant in Sun  (at least 6 hrs of sun)

- Space 18-24" (46-61cm) apart

- Grows 36-48" (91-122cm) tall by 24-36" (61-91cm) wide

- Water as needed all season to keep soil evenly moist, keeping your eye out for the first sign of wilt. Feed with a vegetable fertilizer to ensure your bountiful harvest. Benefits from a support or trellis. Recommended for in-ground growing. To grow seedless fruit, isolate from non-seedless peppers. If not isolated, they will still produce larger, great-tasting fruit with just a few seeds.
