

Double Cascade Double Petunia

- Plant in Sun  (at least 6 hrs of sun)
- Space 10-14" (25-36cm) apart
- Grows 10-15" (25-38cm) tall by 10-12" (25-30cm) wide
- Performs the best in containers and hanging baskets. Plant in well draining soils. Avoid water on foliage and flowers going into night. Avoid consistently wet, saturated soil, as it can make plants chlorotic and weak. Keep well fed for best performance. Occasional gentle (not severe) cutting back will rejuvenate plants, and reblooming usually occurs within

2 weeks of cutting back.

(Cut along dotted line for standard bench card size.)
