

Gaillardia Mesa Series

(*Gaillardia x grandiflora*, *Gaillardia aristata* x *Gaillardia pulchella*)

Perennials Culture (revised 11/08/23)

Fast, non-fading colour that won't quit

The first seed F₁ Gaillardia fills quart and gallon containers quickly with bold, brilliant colour. These plants hold up under dry conditions, and they put out intense, non-fading colour all season long. Create more colourful landscapes and mixed containers with Mesa.

Plug crop time: 5 to 6 weeks

Transplant to finish: 11 to 13 weeks

- The first F₁ Gaillardia from seed puts out lots of fast colour on sturdy plants.
- Strong, early-flowering, well-branched plants fill quart and gallon containers quickly while maintaining the controlled height.
- Compared with other seed Gaillardia, Mesa varieties are more uniform in habit and flowering time, for easier scheduling and shipping.
- Very drought tolerant once established, with intense, non-fading colour all season.
- Upright, well-balanced plants perform well in landscapes and mixed containers.

Critical daylength: 13 hours

Crop Scheduling

| Crop Type | Container Size | Plugs/Pot | Crop Time | Season | PGR |
|-----------|---------------------|-----------|---------------|------------------------------|-----|
| Forcing | 4"/4.5"/Quart/10 cm | 1 (ppp) | 9-11 (weeks) | Late Summer, ADT 72°F (22°C) | - |
| Annual | 4"/4.5"/Quart/10 cm | 1 (ppp) | 10-14 (weeks) | Late Spring, ADT 68°F (20°C) | - |

Common Problems

INSV, White Smut and Powdery Mildew

Finishing Key Tips

PGRs are generally not necessary if grown cooler. If necessary, apply daminozide 2,500 to 5,000 ppm spray.
